Volume 83 1978

Table of Contents

No. 1 1—324 issued on February 1, 1978
No. 2 325—642 issued on February 15, 1978

1 Chromosome Structure and Function. Future Prospects
F. H. C. Crick

5 Free and Membrane-Bound Polysomes from Rat Liver. 1. Improvements of Subcellular Fractionation
C. Dissous, C. Verwaerde, C. Lempereur, and J. Krembel

17 Free and Membrane-Bound Polysomes from Rat Liver. 2. Recovery of Large Free and Membrane-Bound Polysomes
C. Dissous, C. Lempereur, C. Verwaerde, and J. Krembel

29 Simultaneous Purification and Some Properties of Aspartate: tRNA Ligase and Seven Other Amino-acid: tRNA Ligases from *Escherichia coli*
B. Åkesson and L. Lundvik

37 Protein Degradation in the Plasma Membrane of Regenerating Liver and Morris Hepatomas
R. Tauber and W. Reutter

47 Biosynthesis of the O9 Antigen of *Escherichia coli*. Growth of the Polysaccharide Chain
H.-C. Flemming and K. Jann

53 Transport of Phosphate Analogues in Rat-Liver Mitochondria
H. Freitag and B. Kadenbach

59 Initiation of Lambda DNA Replication *in vitro* Promoted by Isolated P-Gene Product
A. Klein, B. Bremer, H. Kluding, and P. Symmons

67 The Malate Dehydrogenase Isoenzymes of *Saccharomyces cerevisiae*. Purification, Characterisation and Studies on Their Regulation
E. Hägele, J. Neeff, and D. Mecke

77 A Fluorescence Approach of the Determination of Translational Diffusion Coefficients of Lipids in Phospholipid Monolayer at the Air-Water Interface
J. Teissie, J.-F. Tocanne, and A. Baudras

87 Characterisation of Cathepsin B and Collagenolytic Cathepsin from Human Placenta
P. Evans and D. J. Etherington

99 Mg^{2+} Translocation across the Thylakoid Membrane: Studies Using the Ionophore A 23187
G. Ben-Hayyim

105 Forssman Glycolipid Variants of Dog Gastric Mucosa. Structure of a Branched Ceramide Octasaccharide
B. L. Slomiany and A. Slomiany

113 Role of Lysine-183 in D-Glyceraldehyde-3-Phosphate Dehydrogenases. Properties of the *N*-Acetylated Yeast, Sturgeon Muscle and Rabbit Muscle Enzymes
G. Foucault, M. Nakano, and J. Pudles

125 Effect of Intravesicular Monovalent Cations on the Steady State of the Phosphoenzyme of Adenosine Triphosphatase Dependent on Sodium and Potassium Ions in Inside-Out Plasma-Membrane Vesicles
H. Walter and H. Bader

131 Active-Site Titration of Pig-Plasma Benzylamine Oxidase
A. Lindström and G. Pettersson

137 Quantitative Determination of Ferredoxin, Ferredoxin-$NADP^+$ Reductase and Plastocyanin in Spinach Chloroplasts
H. Böhme

143 Properties of Isolated Human α_1-Antitrypsins of Pi Types M, S and Z
J.-O. Jeppsson, C.-B. Laurell, and M. Fagerhol

155 Evidence for Inhibition of Trypsin by Thiols. The Mechanism of Enzyme-Inhibitor Complex Formation
F. S. Steven and V. Podrazký

163 Isolation and Chemical Characterization of a Highly Purified Phytomitogen from *Phaseolus coccineus* Seeds
P. Angelisová and C. Haškovec

169 Initiation of Translation with Native 40-S Ribosomal Subunits
M. Fresno and D. Vázquez

179 Bovine Galactosyl Transferase. Substrate · Manganese Complexes and the Role of Manganese Ions in the Mechanism
A. D. Tsopanakis and D. G. Herries

189 Purification and Characterization of Aldehyde Dehydrogenase from Bovine Liver
W. Leicht, F. Heinz, and B. Freimüller

197 Quantitative Studies on Competitive Ligand Binding to Bovine Serum Albumin by Use of the Spin Label 5-Doxyl Dodecanoic Acid
C. Lagercrantz, T. Larsson, H. Karlsson, and M. Setaka

205 Calf-Spleen Nicotinamide-Adenine Dinucleotide Glycohydrolase. Properties of the Active Site
F. Schuber, M. Pascal, and P. Travo

215 Adenosine-3′:5′-Monophosphate-Binding Proteins from Bovine Kidney. Isolation by Affinity Chromatography and Limited Proteolysis of the Regulatory Subunit of Protein Kinase II
W. Weber and H. Hilz

227 The Covalent Rigid-Layer Lipoprotein in Cell Walls of *Proteus mirabilis*
J. Gmeiner, H.-P. Kroll, and H. H. Martin

235 The Role of Serum Albumin in the Uptake of Fatty Acids by Cultured Cardiac Cells from Chick Embryo
S. Paris, D. Samuel, Y. Jacques, C. Gache, A. Franchi, and G. Ailhaud

245 Quantitative Analysis of the Protein Composition of Yeast Ribosomes
T. Kruiswijk, R. J. Planta, and W. H. Mager

253 Lipid Intermediates in the Synthesis of the Inner Core of Yeast Mannan
A. J. Parodi

261 Structural Homology of Cytochromes *c*
D. J. Cookson, G. R. Moore, R. C. Pitt, R. J. P. Williams, I. D. Campbell, R. P. Ambler, M. Bruschi, and J. Le Gall

277 Binding of 4-Methylumbelliferyl α-Manno-oligosaccharides to Concanavalin A: Equilibrium Study
A. Van Landschoot, E. G. Loontiens, and C. K. De Bruyne

287 Association of Binding Sites for Guanine Nucleotides with Adenylate Cyclase Activation in Rat Pancreatic Plasma Membranes. Interaction of Gastrointestinal Hormones
M. Svoboda, P. Robberecht, J. Camus, M. Deschodt-Lanckman, and J. Christophe

299 Electrostatic Interactions at Charged Lipid Membranes. Measurement of Surface pH with Fluorescent Lipoid pH Indicators
W. L. C. Vaz, A. Nicksch, and F. Jähnig

307 Purification and Characterization of Alanine Carrier Isolated from H-Proteins of *Bacillus subtilis*
I. Kusaka and K. Kanai

313 Kinetics of Carbon Monoxide Binding to Fully and Partially Reduced Human Hemoglobin Valency Hybrids
H. S. Rollema, A. Raap, and S. H. De Bruin

319 A Naphthoquinone Adsorbent for Affinity Chromatography of Human Dihydropteridine Reductase
R. G. H. Cotton and I. Jennings

325 Glucose-Containing Oligosaccharides in the Urine of Patients with Glycogen Storage Disease Type II and Type III
G. Lennartson, A. Lundblad, J. Lundsten, S. Svensson, and A. Häger

335 The Acetylcholine Receptor as Part of a Protein Complex in Receptor-Enriched Membrane Fragments from *Torpedo californica* Electric Tissue
F. Hucho, G. Bandini, and B. A. Suárez-Isla

341 Translation of Ascites and Mengovirus RNA in Fractionated Cell-Free Systems from Uninfected and Mengovirus-Infected Ehrlich-Ascites-Tumor Cells
P. B. Hackett, E. Egberts, and P. Traub

353 Selective Translation of Mengovirus RNA over Host mRNA in Homologous, Fractionated, Cell-Free Translational Systems from Ehrlich-Ascites-Tumor Cells
P. B. Hackett, E. Egberts, and P. Traub

363 Blood-Group ABH-Specific Macroglycolipids of Human Erythrocytes: Isolation in High Yield from a Crude Membrane Glycoprotein Fraction
M. Dejter-Juszynski, N. Harpaz, H. M. Flowers, and N. Sharon

375 A Circular Dichroism Study of DNA · Platinum Complexes. Differentiation between Monofunctional, *cis*-Bidentate and *trans*-Bidentate Platinum Fixation on a Series of DNAs
J.-P. Macquet and J.-L. Butour

389 Conservation of Active Ribosomes in Acetone-Treated Cells of *Tetrahymena pyriformis*
K. Kristiansen, B. Hartmann, P. Plesner, and A. Krüger

395 Phosphorylation *in vivo* of Ribosomes in *Tetrahymena pyriformis*
K. Kristiansen, P. Plesner, and A. Krüger

405 The Structures of Some Peptides from Bee Venom
J. Gauldie, J. M. Hanson, R. A. Shipolini, and C. A.Vernon

411 Mechanism of Activation of Protein Kinase I from Rabbit Skeletal Muscle. Mapping of the cAMP Site by Spin-Labeled Cyclic Nucleotides
J. Hoppe, E. Rieke, and K. G. Wagner

419 Mechanism of Activation of Protein Kinase I from Rabbit Skeletal Muscle. Investigation with Agarose-Immobilized cAMP Derivatives
E. Rieke, J. Hoppe, and K. G. Wagner

427 Studies of the Selective Permeation of Radioactively Labelled Aspartate Aminotransferase Isozymes into Mitochondria *in vitro*
E. Marra, S. Doonan, C. Saccone, and E. Quagliariello

437 Investigation of the Mechanism of the Methylmalonyl-CoA Mutase Reaction with the Substrate Analogue: Ethylmalonyl-CoA
J. Rétey, E. H. Smith, and B. Zagalak

453 Synthetic RNA and DNA Duplexes. Premelting, Melting and Postmelting Transitions of Alternating Inosine-Cytosine Polynucleotides in Solution
D. J. Patel

465 The Chemistry of the Reaction of 2-Hydroxy-5-nitrobenzyl Bromide with His-32 of α-Lactalbumin
T. E. Barman

473 Decreased Heparin Sensitivity of Cyclohexanedione-Modified Thrombin
R. Machovich, M. Staub, and L. Patthy

479 Transitional Steady-State Investigations during Aerobic-Anaerobic Transition of Glucose Utilization by *Escherichia coli* K-12
H. W. Doelle and N. W. Hollywood

485 Formate Dehydrogenase from *Pseudomonas oxalaticus*
U. Müller, P. Willnow, U. Ruschig, and T. Höpner

499 Fatty Acid Synthesis by Isolated Chromoplasts from the Daffodil. [^{14}C]Acetate Incorporation and Distribution of Labelled Acids
H. Kleinig and B. Liedvogel

507 Pyrophosphate-Stimulated Uptake of Calcium into the Germlings of *Phytophthora infestans*
L. A. Okorokov, V. A. Sysuev, and I. S. Kulaev

513 Urinary Abnormalities in Fucosidosis. Characterization of a Disaccharide and Two Glycoasparagines
A. Lundblad, J. Lundsten, N. E. Nordén, S. Sjöblad, S. Svensson, P.-A. Öckerman, and M. Gehlhoff

523 Location of Tyrosine Residues in the Disk of Tobacco-Mosaic-Virus Protein and Comparison of the Subunit Packing with that of the Virus
J. Graham and P. J. G. Butler

529 Interaction of Contractile Proteins with DNA
V. G. Corces and J. Avila

537 Non-Ribosomal Nucleotide Sequences in 7-S RNA, the Immediate Precursor of 5.8-S Ribosomal RNA in Yeast
P. De Jonge, R. A. Kastelein, and R. J. Planta

547 Transfer of Bovine J-Blood-Group Determinant onto Erythrocytes: Isolation and Identification of a Blocker
H. Stephan and O. W. Thiele

553 The Reactivity of Sulfhydryl Groups at the Active Site of an R-Factor—Specified Variant of Chloramphenicol Acetyltransferase
Y. Zaidenzaig and W. V. Shaw

563 Glycosyl Transfer from Dolichyl Phosphate Sugars to Endogenous and Exogenous Glycoprotein Acceptors in Yeast
L. Lehle and W. Tanner

571 Glycolipids in Mouse Thymocytes Stimulated by Concanavalin A. Characterisation of Glycolipids and Rate of Lipid Biosynthesis during Stimulation
G. Rosenfelder, R. V. W. Van Eijk, D. A. Monner, and P. F. Mühlradt

581 Factors Affecting Glucosyl and Mannosyl Transfer to Dolichyl Monophosphate by Liver Cell-Free Preparations
A. K. A. Kerr and F. W. Hemming

587 Circular Dichroic Properties and Conformation of Thionicotinamide Dinucleotides
R. Joppich-Kuhn and P. L. Luisi

593 Circular Dichroic Properties and Conformation of Thionicotinamide Dinucleotides Bound to Horse-Liver Alcohol Dehydrogenase
R. Joppich-Kuhn and P. L. Luisi

601 Fluorescence Properties of Reduced Thionicotinamide—Adenine Dinucleotide and of Its Complex with Octopine Dehydrogenase
A. Baici, R. Joppich-Kuhn, P. L. Luisi, A. Olomucki, M.-O. Monneuse-Doublet, and F. Thomé-Beau

609 Fatty Acid β-Oxidation System in Microbodies of *n*-Alkane-Grown *Candida tropicalis*
S. Kawamoto, C. Nozaki, A. Tanaka, and S. Fukui

615 Closely Spaced Nucleosome Cores in Reconstituted Histone · DNA Complexes and Histone-H1-Depleted Chromatin
M. Steinmetz, R. E. Streeck, and H. G. Zachau

629 Accumulation of Carnitine Esters of β-Oxidation Intermediates during Palmitate Oxidation by Rat-Liver Mitochondria
M. Lopes-Cardozo, W. Klazinga, and S. G. Van den Bergh

635 Evidence for a Homogeneous Pool of Acetyl-CoA in Rat-Liver Mitochondria
M. Lopes-Cardozo, W. Klazinga, and S. G. Van den Bergh
